PRODUCTS
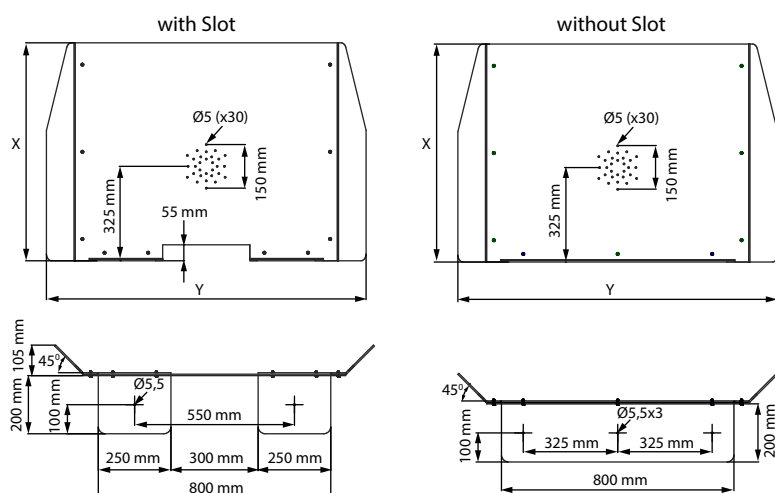

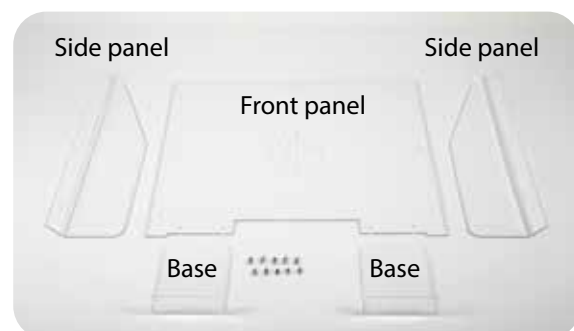

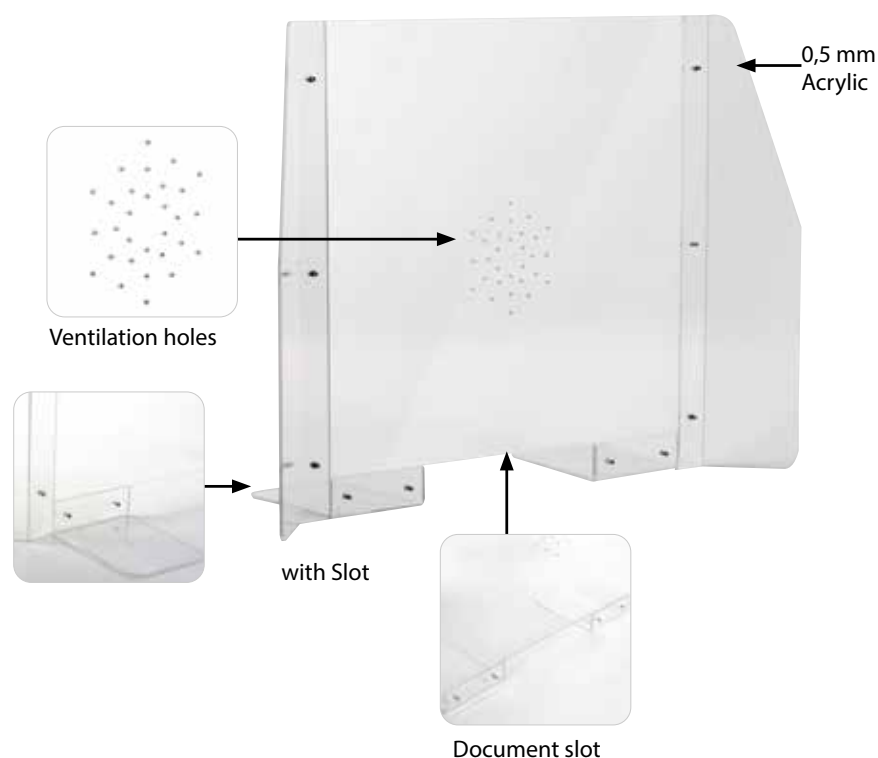

INDEX

CLEAR HYGIENE SEPARATOR

- The Clear Hygienic Separator helps to protect you from unwanted contamination from airborne viruses as well as bacteria and germs that can be caused by coughing or sneezing.

- It helps you to keep your distance with customers or other workers and colleagues.

- Made of high-quality acrylic material which gives an extra transparency.

- Speaker holes make the communication easier. Very easy to install, you can place these screens side by side to create a protective guard for desks in public use, receptions, pharmacies and spaces for workers.

- Our products are manufactured in Europe and imported from Europe.

- The Hygienic Barrier is made of the finest materials while providing the highest level of quality. Plexiglas acrylic plate is resistant to shatter.

- Suitable for indoor and outdoor use.

- Can be used for multipurpose settings, whether this may be at your place of business, office, markets, checkout desks, retail shop transaction window or as an office counter window.

HYGIENE BARRIERS

- Clear Hygiene Barrier creates a physical barrier between customers and workers in the same environment such as POS checkouts, cash registers, tables or desks. It helps protecting against unwanted contamination from airborne viruses as well as bacteria and germs that can be caused by coughing or sneezing.

- It is good for takeout counters, pharmacies, grocery stores, offices and banks.

- It is made of sturdy aluminium frame and transparent clear 1 mm Plastech PET to provide clear view on both sides of the barrier.

- Clear Hygiene Barriers can be placed next to other to create a clear wall.

- High stability and lightweight for convenient mobility.

- Simple to clean. Use a soft cloth and soapy water only.

Do not use scouring compounds or chemical glass cleaners as they may harm surface.

- In 2 heights; 1000 mm and 1200 mm, Budget Clear Hygiene Barriers is available in 6 standard sizes. Please ask for custom sizes.

- Delivered feet unassembled to save from transport

TABLE BARRIER

- Sleek and modern, desktop privacy panel provides a barrier while still allowing full view.

- It separates the work for eating area from others to shield against cough or sneeze.

- Table Barrier allows for personal space for each person protecting against any germs or viruses.

- Each panel acts as a moveable partition to provide separate space and block distractions. The panels can be moved easily and remounted.

- Table barrier works well for cafes, restaurants, hotels as well as offices. With defined modular space, seating area on the table can be easily adjusted.

- Feet or Clamp options are available for stability of the divider. Rubber pads on the clamp and feet protects the table and hold divider in place. Reverse clamp and support foot for installation on front or back of table surface.

- Silver anodised aluminium profile, steel feet and clamp are resistant against food or fizzy drink spills. It is easy to clean even the feet and clamp grooves filled with any food or drink. Simply take of the feet or clamp and clean the grooves with a damp cloth.

CLAMP KITS

- When clear or frosted acrylic panels or wood chalk boards required to divide or shield tables or counters, a clamp is needed to secure the panels on to it.

- MT Displays offers two clamping options: Edge Clamp and Mid-Section Clamp.

- Dividers are secured the to the edge of a table, cashier or work bench with a secure and elegant metal clamp. Being removable and having soft pads (EVA) clamps can be placed anywhere easily on the edge of the counter.

- Partitions can be easily removed and relocated

- Clamp with a Clear Panel offers social distancing as effective sneeze guard to help protect people on either side of the screen from the transmission of airborne viruses and germs.

- If Frosted Panel used with a clamp, it also provides privacy.

- Wood Panel with clamp is also simple solution for menu boards or price list.

- Both Edge or Mid- Section Clamps are suitable for a variety of office styles, helping to reduce workplace disturbances and creating private workstations.

- Moreover it works well for offices, cashiers, medical facilities, call centres and education and testing centres.

- They are normally used in pairs.

CLEAR WALL SEPARATOR

• It is non-yellowing, lightweight and highly impact-resistant.

• For added durability, our translucent wall panels are fixed to the anodized extruded aluminium channels with a silicone wick.

• Since the 2020 pandemic started, clear wall dividers will be a crucial tool for managing the spread of COVID-19 and other infectious diseases in several facilities.

• When used as Check-In Barrier, they are perfect for any medical facility right at the reception area. In hospitals, primary care facilities, and dentist offices, clear room dividers act as a line of defence from infectious diseases spreading to either medical staff or patients.

• The transparent barrier allows communication to continue on either side of the partition as well. If there are multiple patients at reception, the Clear Dividers can act as a sneeze guard and also a form of crowd control between people.

• Since these dividers are freestanding and portable, they can easily be moved to different areas of the facility as needed.

• They are stackable, taking less space when not used.

• Rolls on levelling casters optional or can be fixed on ground by using the holes on the feet.

• Panel Material: Durable 1 mm clear PET

• Frame Material: Extruded and anodised aluminium

• Frame Finish: Black powder-coat paint, silver anodised or white powder-coat paint

Stackable separator
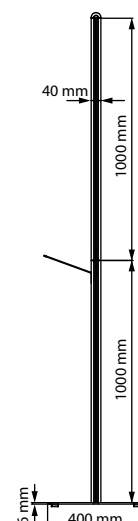

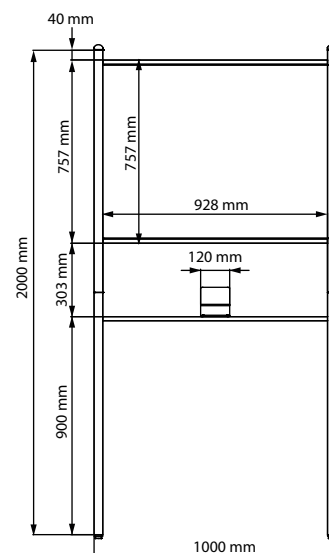

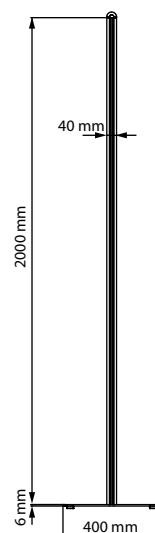

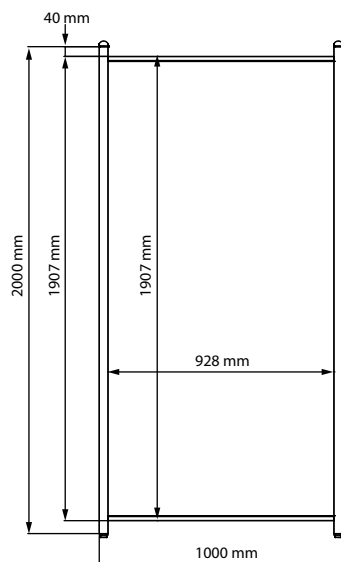

90 CONNECTOR KIT FOR CLEAR WALL SEPARATOR

Clear Wall Separator the most popular social distancing item anywhere people would stand, exercise, queue or sit close together. Connector Kit Clear Wall Separator connects multiple Clear Wall Separators together.

• With help of Connector Kit, as many Clear Wall Separators as deeded can be connected together to create 78.74" high protection.
• Fixing protection screens with hinges at three heights, Connector Kit allows placing dividers with 90° up to 180°angle.
• It allows building straight wall-like screen as well as L, Z or U shape dividers
• Locking castors holds Clear Wall Separator to create light weight and ideal partition.
• It provides a safety barrier to help prevent infection.
• Simple assembly required. Spanner and allen key included in the kit for assembly.

TOUCHLESS DISPANSER STAND, FOOT OPERATED

• The foot-operated Touchless Dispenser Stand holds 1L refillable dispenser bottle and pump top mechanism to provide quick and easy access to disinfection. No special refill cartridges needed.

• Made of sturdy powder-coated steel stand. Overall height is 1493 mm.

• Paddle at top allows large range of motion for dispensing.

• The 70 mm wide foot pedal is made of galvanized and powder-coated steel. It stays out at approx. 51 mm height.

• The 370 mm (w) x 400 mm (d) steel base is non-corrosive powder coated for outdoor conditions.

• Dispenser is made of shutter-proof ABS. Dispenser bottle has spring loaded locking system to prevent foreign access.

• It is easy to access for cleaning or refiling the gel or liquid by the shop or maintenance staff.

• Lever stays open for easy access during change of bottle. Pump is placed into the nest under the lever to avoid pump moving around. Pump nuzzle faces 120° downwards allowing alcohol /gel into hand avoiding to spill over or wasting alcohol/gel.

• Drip tray included with The Touchless Dispenser Stand, inserts into the holder with a basic locking system to prevent loosing.

• Magnetic surface is suitable for magnetic posters as well as printing. Both direct printing and sticker can be appiled.

• Outdoor use.

• Flat Packed for economical shipping.

• 2 boxes.

FLOOR STAND DISPENSERS
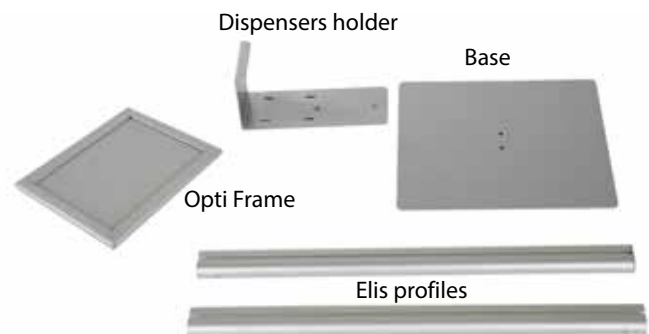

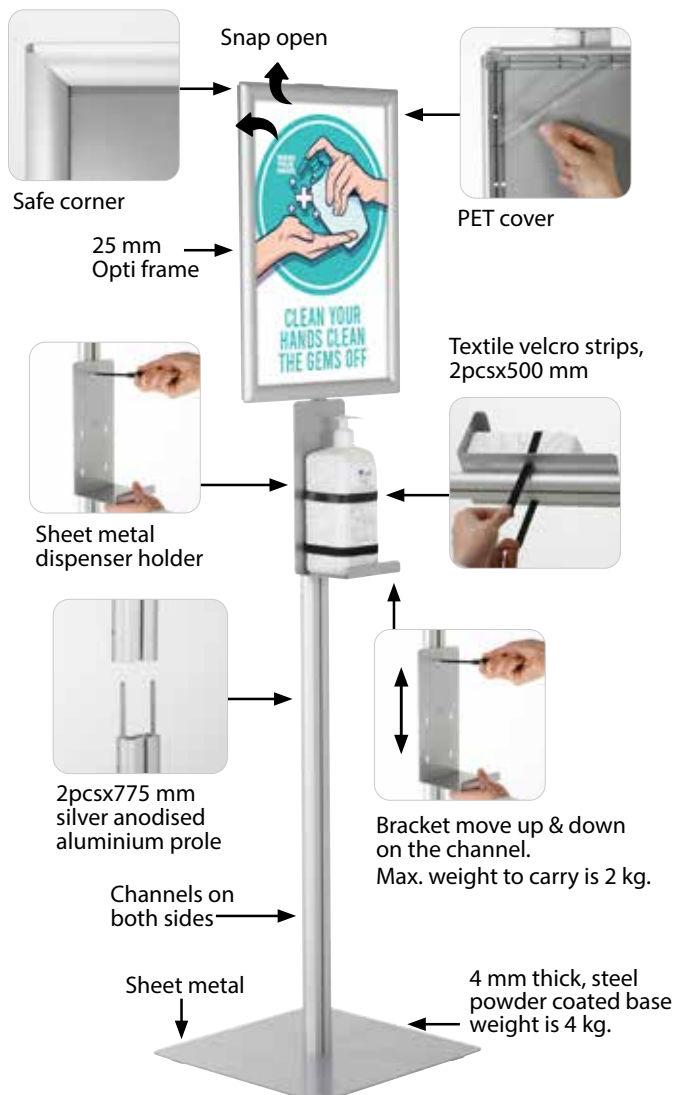

- Floor Stand for Pump Dispensers is ideal for use with hand sanitizing or wipe dispensers.

- It is equipped with an aluminium A3 snap open Opti Frame and its anti-reex poster protection for messages and hygiene rules to draw attention.

- Dispenser height is adaptable for various brands available in the market. Height of the bracket is 25 cm. Any height of dispenser can be used as long as the max weight does not exceed 2 kg on each bracket.

- Opti Frame's and Dispenser's position at height is also adjustable on the pole, moving up and down the channel of the aluminium post.

- If required an additional Opti Frame, box dispenser or pump dispenser bracket can be added, allowing the stand to oer two dispensers or 2 frames at the same time.

- The dispensers are mounted with 2 pcs of very tight weather- resistant velcro tape, which is replaceable if need be. The length of each velcro tape is 50 cm, and allows different dispenser depths or heights to be placed on the bracket. The dispenser placement at the bracket is 10 cm x 10 cm.

- The station is suitable for use in high traffic areas such as supermarkets, pharmacies, banks, factories, construction sites, apartments and many more.

- 100% Made in Turkey by M&T Displays.

- Rolling is easy for maintenance stand, there is no lock for maintenance access.

- Easy to assemble: only 4 main parts

- Strong aluminium material suitable for indoor and outdoor.

- Supports different brands of all kind of disposable wipes, tissue boxes and liquid sanitizers (boxes or dispensers not included).

TOOL FREE DISPENSER VOL2 FOR WALL AND GLASS MOUNTING

• Wall Dispenser is a good solution when space is limited. It is supplied with screw set and 2 wall brackets which has 3M VHB self-adhesive tape applied on.

• The dispensers are designed with independent modular sections to tailor-fit your space and mount easily on any surface with waterproof adhesive mounting brackets, from which they can be removed for cleaning.

• It is applied to glass or door with the bracket with 3M VHB self-adhesive tape included in the pack.

• Screw set helps to fix dispenser on the wall directly .

• Made of shutter-proof ABS, Wall Dispenser offer hand washing facilities around your business to help protect staff and customers from the spread of infection. It is supplied with a refillable 1l bottle and pump top mechanism to provide quick and easy access to disinfection. No special refill cartridges needed.

• Dispenser bottle has spring loaded locking system to prevent foreign access. Lever stays open for easy access during change of bottle. Pump is placed into the nest under the lever to avoid pump moving around. Pump nuzzle faces 120° downwards allowing alcohol gel into hand avoiding to spill over or wasting alcohol/gel.

• Drip tray included with Wall Dispenser, inserts into the holder with a basic locking system to prevent loosing.

• The use of a Wall Dispenser alcohol / gel holder means that there is no need for access to water or paper towels to maintain effective hand hygiene.

• It is packed complete with dispenser(without gel), wall bracket and screw set.

• Tool-Free installation and removal.

DESKTOP DISPENSER VOL2

• Desktop Dispenser is a good solution for countertop hand sanitising needs. It offers hand washing facilities around your business to help protect staff and customers from the spread of infection. It is supplied with a refillable 1l bottle and pump top mechanism to provide quick and easy access to disinfection.

• Made of shutter-proof ABS, Dispenser is fixed on anodised aluminium (51x25 mm). The heavy steel base is 150x200 mm and provides stability to the stand. To avoid scratches on the counter, the steel base has soft feet. It is designed for use in counter standing form without the need for any permanent fixing.

• Dispenser bottle has spring loaded locking system to prevent foreign access.

• Lever stays open for easy access during change of bottle. Pump is placed into the nest under the lever to avoid pump moving around. Pump nuzzle faces 120° downwards allowing alcohol /gel into hand avoiding to spill over or wasting alcohol/gel.

• Drip tray included with Desktop Dispenser, inserts into the holder with a basic locking system to prevent loosing.

• The use of a Desktop Dispenser alcohol / gel holder means that there is no need for access to water or paper towels to maintain effective hand hygiene.

• Packed as complete in 1 box. No assembly required
